FLORIM

FLORIM È CERTIFICATA B CORP

FLORIM IS
B CORP
CERTIFIED

Guardiamo al business come una forza positiva in grado di generare profitto e allo stesso tempo creare un impatto virtuoso sulle persone e sull'ambiente. Da sempre.

Le nostre scelte, giorno dopo giorno, ci hanno portato a migliorare il nostro modo di fare impresa.

We conceive the business as a positive force able to generate profits and at the same time create a virtuous impact on people and the environment. Since forever.

Our choices, day after day, have led us to improve our way of doing business.

COSA SIGNIFICA ESSERE B CORP?

Ci siamo misurati con i **più alti standard di performance sociale e ambientale** e dopo un lungo e rigoroso processo di verifica **siamo diventati B Corp.**

Le aziende che riescono a ottenere questa certificazione sono le più evolute al mondo in termini di impatto positivo sia sociale che ambientale.

Costituiscono un movimento globale di 'Purpose Driven Businesses' che ha l'obiettivo di diffondere un nuovo **paradigma economico**, che vede le imprese come protagoniste nel **rigenerare la società.**

Certified

Corporation

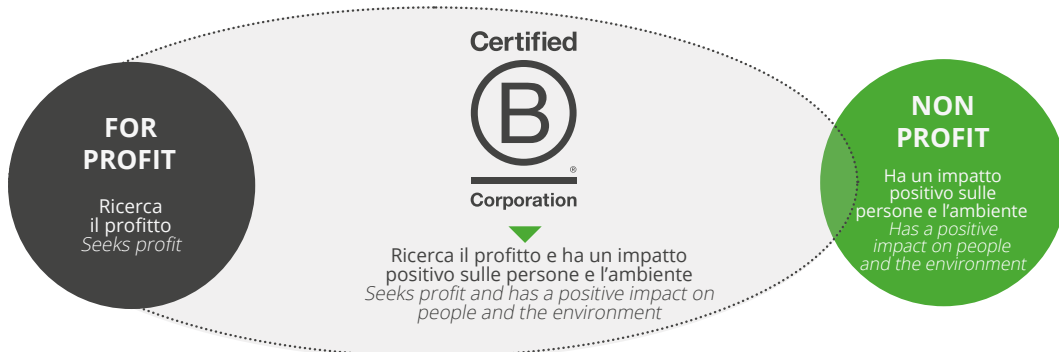

Guarda il video *"Essere sostenibile è una scelta quotidiana"* con i volti di alcune delle "persone Florim" che ogni giorno contribuiscono a rendere l'azienda sempre più responsabile.
Watch the video "Being sustainable is a daily choice" with the faces of some of the "Florim people" who contribute to making the company even more responsible, every day.

WHAT DOES IT MEAN TO BE B CORP?

We vied with the **highest social and environmental performance standards**, and after a long and scrupulous verification process, **we became B Corp.**

Companies that succeed in obtaining this certification are the most evolved in the world in terms of their positive social and environmental impact.

They constitute a global movement of 'Purpose Driven Businesses' whose aim is to diffuse a **new economic paradigm**, whereby companies are the drivers of **social regeneration.**

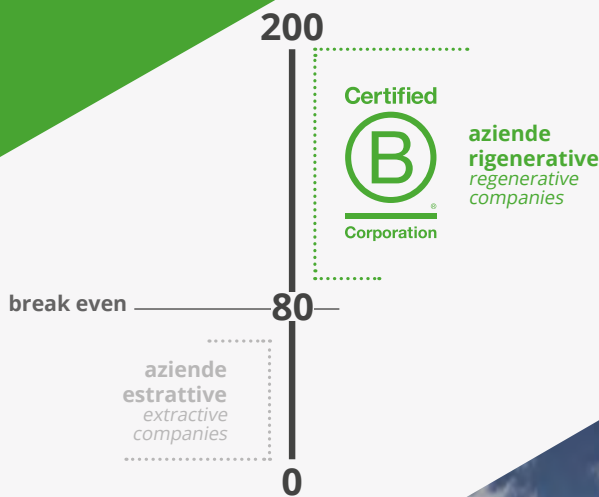

BUSINESS RIGENERATIVO

È in corso un **cambiamento culturale** epocale di cui siamo orgogliosi di essere parte. Uno dei principi fondamentali di tutte le B Corp è quello di adottare un business rigenerativo che si contrappone a quello estrattivo.

Rigenerare significa non solo diminuire l'impatto sulla natura e sull'ambiente che ci circonda, ma addirittura produrre effetti positivi, creando valore condiviso nella società e rigenerando la biosfera.

Diventano B Corp solo quelle aziende che misurano il loro impatto complessivo attraverso il Benefit Impact Assessment (BIA) superando il punteggio di 80 (in una scala da 0 a 200) ed entrando così in una élite di imprese **rigenerative**. Chi non supera questa soglia viene considerata **azienda estrattiva** ovvero per funzionare consuma risorse economiche, sociali e ambientali superiori di quanto sia in grado di generare come output.

REGENERATIVE BUSINESS

An historical **cultural shift** is under way, of which we are proud to be a part. One of the underlying principles of all B Corps is the adoption of a regenerative business model as opposed to an extractive one.

Regenerating means not only reducing the impact of business on our surrounding nature and environment, but also producing **positive effects, creating shared value in society and regenerating the biosphere.**

Only those companies that measure their overall impact through the Benefit Impact Assessment (BIA) exceeding the score of 80 points can be certified as B Corp, joining an elite of **regenerative companies**. Anyone who does not exceed this threshold is considered an **extractive company** or, in order to function, they consume higher economic, social and environmental resources than they are able to generate as output.

IL PUNTEGGIO DI FLORIM

Il punteggio conseguito da Florim Italia è di 98,1 punti e il consolidato, che comprende la consociata americana, è di 90,9 punti. Così Florim rientra tra le migliori B Corp al mondo.

Sono oltre 140.000 le aziende che stanno cercando di ottenere la certificazione, nel rispetto di **severissimi standard di trasparenza e sostenibilità.**

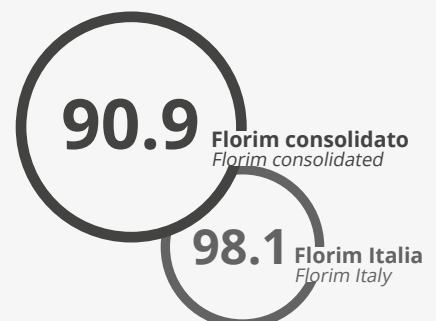

Solo il 3% riesce a superare l'iter di verifica imposto da **B Lab**, ente certificatore di origine americana che oggi opera a livello globale.

FLORIM'S SCORE

Florim Italia score is 98.1 points and the consolidated, which includes the American subsidiary, is 90.9 points. Florim is now one of the best B Corps throughout the world.

More than 140,000 companies are currently seeking to obtain the certification **in compliance with the strictest transparency and sustainability standards.**

Only 3% manage to pass the verification process implemented by **B Lab**, the US certifying body that currently operates on a global scale.

WOODSLATE LIFE

Ardesia e legno di quercia. Tocco rustico e sobrietà più attuale. Look rustico unito ad una sensibilità pulita e moderna. Questi sono i tratti distintivi della collezione **Woodslate Life** del Contemporary design. La collezione gioca con materiali nativi, l'ardesia e il legno di quercia, declinati su una scala colori versatile ed accattivante, tra il grigio e il nocciola, che permette di abbinare con facilità ispirazioni naturali differenti. La semplicità pulita dei listoni in legno può diventare quindi lo sfondo sul quale valorizzare la texture materica delle superfici effetto ardesia oppure trasformarsi in elemento distintivo dello spazio grazie ai decori spinati o alla boiserie con effetto 3D. In qualsiasi contesto vengano utilizzate le superfici della collezione Woodslate Life aggiungeranno un tocco autentico e, allo stesso tempo, attuale a qualsiasi ambiente, senza dimenticare la funzionalità dei prodotti in gres porcellanato Made in Florim.

LIFE WOODSLATE

Slate and oak wood. A rustic touch with a more contemporary sobriety. A rustic look combined with a clean, modern sensibility. These are the hallmarks of the **Woodslate Life** Contemporary design collection. The collection toys with the native materials of slate and oak wood, interpreted on a versatile and appealing color scale, from gray to hazelnut, allowing different natural inspirations to be combined with ease. The clean simplicity of the wooden planks can thus become the backdrop against which the textural touch of the slate-effect surfaces can be enhanced, or else become the distinctive element of the space with herringbone decorations or 3D-effect paneling. In whatever context they are used, the surfaces of the Woodslate Life collection will add an authentic and, at the same time, contemporary undertone to any environment, without disregarding the functionality of Made in Florim porcelain stoneware products.

Ardoise et bois de chêne. Touche rustique et sobriété plus contemporaine. Le style rustique allié à une sensibilité sobre et moderne. Ces traits distinctifs définissent la collection **Woodslate Life** du Contemporary design. La collection joue avec des matériaux locaux, l'ardoise et le bois de chêne, déclinés sur une échelle de couleurs polyvalente et séduisante, entre le gris et le noisette, qui permet d'associer facilement différentes inspirations naturelles. La simplicité épurée des planches en bois peut ainsi devenir la toile de fond sur laquelle la texture des surfaces à l'effet ardoise peut être mise en valeur ou devenir l'élément distinctif de l'espace grâce aux motifs à chevrons ou à la boiserie à l'effet 3D. Peu importe le cadre où les surfaces de la collection Woodslate Life sont utilisées : elles conféreront une touche à la fois authentique et contemporaine à n'importe quel espace, tout en offrant la fonctionnalité des produits en grès cérame Made in Florim.

Schiefer und Eichenholz. Rustikale Akzente und moderne Nüchternheit. Concept Ein rustikales Aussehen kombiniert mit einer klaren, modernen Sensibilität. Dies sind die Markenzeichen der Kollektion **Woodslate Life** in Contemporary Design. Die Kollektion spielt mit urtümlichen Materialien wie Schiefer und Eichenholz in einer vielseitigen und ansprechenden Farbskala zwischen Grau und Haselnuss, sodass sich verschiedene natürliche Inspirationen leicht zusammenstellen lassen. Der schlichte Minimalismus der Holzdielen wird so zum Hintergrund, vor dem die Textur der Oberflächen in Schieferoptik zur Geltung kommt, oder sie werden dank des Fischgrätdekors oder der Täfelung in 3D-Optik zu einem markanten Element im Raum. Die Oberflächen der Kollektion Woodslate Life verleihen jeder Umgebung eine authentische und zugleich zeitgemäße Note, ohne dabei die Funktionalität der Feinsteinzeugprodukte Made in Florim zu vergessen.

Pizarra y madera de roble Toque rústico y sobriedad actual. Aspecto rústico unido a una sensibilidad limpia y moderna. Estos son los rasgos distintivos de la colección **Woodslate Life** de Contemporary design. La colección juega con materiales autóctonos, la pizarra y la madera de roble, declinados en una cautivadora y versátil escala de colores que oscila entre el gris y el avellana permitiendo una fácil combinación de diferentes inspiraciones naturales. La limpia simplicidad de los listones de madera puede convertirse así en un fondo sobre el que destacar el acabado texturizado de las superficies efecto pizarra o transformarse en un elemento distintivo del espacio, gracias a las decoraciones con motivo de espiguilla o a la boiserie de efecto 3D. Independientemente del contexto en el que se utilicen, las superficies de la colección Woodslate Life añaden un toque auténtico y actual a cualquier ambiente, sin olvidar la practicidad de los productos de gres porcelánico Made in Florim.

Per un effetto ottimale della posa, florim suggerisce di mantenere 2 mm di fuga per pose monoformato e 3 mm per combinare formati misti - For optimal installation results, florim recommends maintaining a joint of 2 mm 1/12" for single format installations and 3 mm 1/8" to combine mixed formats. - Pour réaliser une pose parfaite, florim suggère de maintenir 2 mm de joint pour la pose des monoformats, et 3 mm pour les combinaisons de formats mixtes. - Um einen optimalen effekt beim verlegen zu erzielen empfiehlt florim eine 2 mm fuge bei einformatigen verlegungen und 3 mm fuge bei formatkombinationen Para lograr los máximos resultados en la posa del producto, florim aconseja 2 mm de junta en aplicaciones monoformato y 3 mm en combinaciones de formatos mixtos.

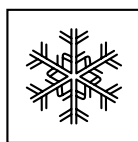

In relazione alle differenti tecnologie produttive l'accostamento di prodotti con spessori diversi potrebbe presentare delle disomogeneità, se ne sconsiglia pertanto l'abbinamento. / Due to the different production technologies, contiguous installation of products with different thickness may give a non-homogeneous result. For this reason we do not recommend this option. / Vu que différentes technologies de production sont utilisées avec des épaisseurs différentes, des problèmes d'homogénéité pourraient se présenter, il est donc déconseillé de les poser ensemble. / Wegen unterschiedlicher Produktionstechnologien können die Fliesen mit verschiedenen Materialstärken optische Differenzen aufweisen. Von einem direkten Aneinanderlegen wird deshalb abgeraten. / Dadas las diferentes tecnologías productivas, la combinación de productos de diferentes espesores podría dar lugar a heterogeneidad, por lo que se desaconseja mezclarlas.

Le lastre ceramiche sono sottoposte a un trattamento di compattazione termica che assicura resistenza e durata nel tempo. Il bassissimo assorbimento d'acqua rende perciò il materiale ingelivo. Ciò può comportare ristagni d'acqua superficiali anche per materiale installato a regola d'arte. / Ceramic tiles undergo a compacting thermal treatment that ensures resistance and durability. The low level of water absorption makes the slabs frost resistant. This could result in superficial water stagnations even if materials are installed in a workmanlike manner. / Les carreaux de céramique subissent un traitement thermique de compactage qui assure résistance et durabilité. Le bas niveau d'absorption d'eau rend les dalles résistant au gel. Il pourrait en résulter des stagnations d'eau superficielles, même si les dalles ont été installées dans les règles de l'art. / Die Keramikplatten werden einer thermischen Verdichtung unterzogen, welche die Widerstandsfähigkeit und Langlebigkeit sichert. Die extrem niedrige Wasseraufnahme macht das Material frostsicher. Die hohe Materialdichte kann, auch bei einer perfekten Verlegung, eine längere Abtrochnungszeit von angestaumtem Wasser zur Folge haben. / Las baldosas cerámicas se someten a un tratamiento de compactación térmica que asegura resistencia y durabilidad. La baja absorción de agua hace que las baldosas resistan al hielo. Esto podría resultar en estancamientos superficiales de agua, incluso si los materiales están instalados según las reglas del arte.
